Quick Access Web Links Extension. It's the application that makes links you visit very frequently a lot easier to manage. You will be able to store the information you collect in many formats. Separate sections are available for web links, notes, usernames and passwords. It will save your time as you don't need to open the browser all the time to access your favorite websites, just open the application, select the type of the information you need and that's it. For example, if you want to see the list of all the web links you have on your Internet Explorer, select the web links category. This will open a list with all the web links you have, choose any one of them and click OK. The application can deal with up to 20,000 web links. If you want to have a backup of all the website you have visited you can create a backup. Just follow the instructions when you have finished saving the links and press "Create Backup".
